

Nursery (daycare)

The children in Acorn Nursery have been singing the rhyme 'Miss Polly Had a Dolly'. We made a role play hospital, which the children have really loved experiencing – especially putting on real plasters! We have read the story 'Funny Business' and then the children drew chalk skeletons on black paper, some of which are displayed in the room. We danced to a skeleton song called 'Dem Bones' and learned that there are lots of different bones in our bodies.

The children in Magnolia Room enjoyed a planned music and movement session. They moved and clapped to the music and danced together with their friends!

The children in Lilac Room had the opportunity to make play dough. They enjoyed pouring and mixing the mixture together and loved playing with it. If you would like a recipe, please see a member of staff in Lilac Room.

Children have enjoyed building with big blocks in our construction room. Children explored different shapes and developing their language as they talked about what they were going to build. In Cherry we say "can we fix it. Yes we can?"
