

## PARTITIONING

Let's do some partitioning....

If we have the number 24, how many tens do we have? How many ones do we have?

The number 24 is made up of 2 tens and 4 ones

So...

$$24 = 20 + 4$$

**Can you answer these questions?**

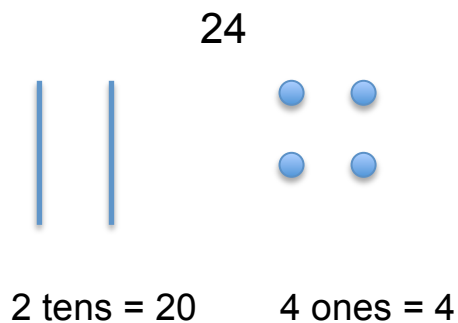

I have 2 tens and 3 ones. What number am I?

I have 5 tens and 2 ones. What number am I?

I have 6 tens and 7 ones. What number am I?

I have 2 tens and 8 ones. What number am I?

We can also use dienes to show how many tens and how many ones are in a number:

**Can you draw dienes for the following numbers:**

35

49

73

88

Now have a go at the worksheets. How many tens and ones does each number have?
